Smith System Home of the5Keys®

OQSG A Smith System Company

These courses focus on offering behind-the-wheel driver training. Includes eLearning courses from their Core Content (the 5 Keys), the Driving Series Bundle, and the Arrive Alive Series Bundle.

**WBT-204:** Arrive Alive - Avoiding a Rear-End Collision

**WBT-102T:** Compass Maneuvering - Truck

**WBT-110B:** Driving the 5Keys - Bus and Transit Vehicles

**WBT-110U:** Driving the 5Keys - Utility Vehicles

**WBT-154:** Following Distance: Resolving the Debate - Small Vehicle

**WBT-154T:** Following Distance: Resolving the Debate - Truck

**WBT-157:** Intersections - Among the Most Dangerous Places on Earth

**WBT-104:** Right Foot Fuel Economy

**WBT-160SV:** The 5Keys to Backing Safely - Small Vehicle

**WBT-160T:** The 5Keys to Backing Safely - Truck

**WBT-156:** The Keys to Safe Lane Changing and Merging

**WBT-114:** Driving Weather

**WBT-110T:** Driving the 5Keys - Truck

**WBT-110:** Driving the 5Keys - Small Vehicle

**WBT-112:** Driving Technology

**WBT-117:** Driving Space

**WBT-116:** Driving Reverse

**WBT-118:** Driving Prepared

**WBT-115:** Driving Family

**WBT-111:** Driving Drowsy

**WBT-113:** Driving Distracted

**WBT-620T:** Core Content: The 5Keys to Reversing - Truck

**WBT-620SV:** Core Content: The 5Keys to Reversing - Small Vehicle

**WBT-630T:** Core Content: The 5Keys to Forward Motion and Reversing - Truck

**WBT-630SV:** Core Content: The 5Keys to Forward Motion and Reversing - Small Vehicle

**WBT-610T:** Core Content: The 5Keys to Forward Motion - Truck

**WBT-610SV:** Core Content: The 5Keys to Forward Motion - Small Vehicle

**WBT-102:** Compass Maneuvering - Small Vehicle

**WBT-209:** Arrive Alive - Saving Fuel

**WBT-210:** Arrive Alive - Proper Positioning in Traffic

**WBT-202:** Arrive Alive - Proper Following Distance

**WBT-212:** Arrive Alive - Margin for Error

**WBT-205:** Arrive Alive - Foul Weather Driving

**WBT-211:** Arrive Alive - Emotions and Driving

**WBT-207:** Arrive Alive - Drowsy Driving

**WBT-201:** Arrive Alive - Building Effective Seeing Habits

**WBT-208:** Arrive Alive - Avoiding Intersection Collisions

**WBT-203:** Arrive Alive - Avoiding Distractions

**WBT-206:** Arrive Alive - Avoiding Backing Collisions

Published: July 22, 2026

### **WBT-204:** Arrive Alive - Avoiding a Rear-End Collision

Most rear-end collisions are avoidable and preventable. In this course, we will cover why tailgating is hazardous, how projecting your eyes down the road can prevent rear-end collisions, the benefits of keeping your vehicle rolling whenever possible, the importance of maintaining space around your vehicle, and the best way to separate yourself from a tailgater. Available in English and French.

*6 min.*

### **WBT-102T:** Compass Maneuvering - Truck

Backing collisions and fixed object, forward motion collisions are consistently at, or near the top of the list of fleet reportable incidents  but they don't need to be. Working with thousands of drivers every year gives us rare insight into why collisions happen and how they can be prevented.

*22 min.*

### **WBT-110B:** Driving the 5Keys - Bus and Transit Vehicles

Our Driving The Smith5Keys Bus video provides drivers with a unique insight into common driving errors and proven safety techniques geared specifically for drivers of city transit, school, paratransit, and motor coaches. This video applies the time tested 5 Keys to Space Cushion driving to bus and transit services that are challenged by vehicle dimensions, passenger needs, and hazards unique to bus stops.

*30 min.*

### **WBT-110U:** Driving the 5Keys - Utility Vehicles

Our Driving The 5Keys video provides drivers with a unique insight into common driving errors.  Using a combination of footage taken from both ground-level and aerial perspectives, traffic patterns are analyzed utilizing our proven 5Key techniques.  The presentation also addresses in vehicle collision prevention technology as a compliment, not replacement, for every good drivers existing skills.

*19 min.*

### **WBT-154:** Following Distance: Resolving the Debate - Small Vehicle

Following distance plays a major role in most multi-vehicle traffic collisions. Despite the evidence, huge numbers of drivers, either through lack of training or personal choice, continue to maintain inadequate spacing.

*14 min.*

### **WBT-154T:** Following Distance: Resolving the Debate - Truck

Following distance plays a major role in most multi-vehicle traffic collisions. Despite the evidence, huge numbers of drivers, either through lack of training or personal choice, continue to maintain inadequate spacing.

*15 min.*

### **WBT-157:** Intersections - Among the Most Dangerous Places on Earth

This presentation explores the many threats in and around intersections and uses The Smith 5 Keys to provide drivers with simple to learn and easy to use techniques to dramatically reduce these threats. The video concludes with an engaging animated reenactment of an intersection collision which the audience is asked to analyze based on the knowledge learned earlier. Intersections: Among the Most Dangerous Places on Earth is a must see for any fleet concerned about intersection related collisions.

*24 min.*

### **WBT-104:** Right Foot Fuel Economy

In just a few minutes, drivers will grasp the simple techniques that will help them immediately realize better fuel economy with the added benefit of safer vehicle operation.

*23 min.*

### **WBT-160SV:** The 5Keys to Backing Safely - Small Vehicle

This video program reveals a unique and very relevant string of problems, circumstances and vehicle design issues that are not present in forward-motion driving.These problems are almost always at the heart of preventable backing incidents.

*30 min.*

### **WBT-160T:** The 5Keys to Backing Safely - Truck

This video program reveals a unique and very relevant string of problems, circumstances and vehicle design issues that are not present in forward-motion driving. These problems are almost always at the heart of preventable backing incidents.

*33 min.*

### **WBT-156:** The Keys to Safe Lane Changing and Merging

The Keys to Safe Lane Changing and Merging offers dozens of real world tips and techniques that will have an instant and lasting impact on drivers of any type of vehicle. Sharing this production with your drivers may help you keep your costs and your headaches under control and may even save lives.

*15 min.*

### WBT-114: Driving Weather

The Driving Weather course is designed to help fleet drivers adapt their driving habits to inclement weather and its effects on visibility and traction and to protect themselves from other drivers using The Smith5Keys, Smith Systems proven driving methodology. Available in: English, French.

*20 min.*

### WBT-110T: Driving the 5Keys - Truck

Our Driving The 5Keys video provides drivers with a unique insight into common driving errors. Using a combination of footage taken from both ground-level and aerial perspectives, traffic patterns are analyzed utilizing our proven 5Key techniques. The presentation also addresses in vehicle collision prevention technology as a compliment, not replacement, for every good drivers existing skills. Available in: English, Spanish.

*24 min.*

### WBT-110: Driving the 5Keys - Small Vehicle

Our Driving The 5Keys video provides drivers with a unique insight into common driving errors. Using a combination of footage taken from both ground-level and aerial perspectives, traffic patterns are analyzed utilizing our proven 5Key techniques. The presentation also addresses in vehicle collision prevention technology as a complement, not replacement, for every good drivers existing skills. Available in: English, French.

*19 min.*

### WBT-112: Driving Technology

This Driving Technology presentation teaches your drivers how to use their driving skills gained by using The 5 Keys of the Smith System in partnership with the latest in ADAS technology to prevent vehicle collisions. Available in: English, French.

*16 min.*

### WBT-117: Driving Space

Driving Space illustrates the importance of why maintaining a proper space cushion is an essential element to collision avoidance. Learners recognize how proper following distance lowers stress behind the wheel without adding additional time to their daily drive. Available in: English, French.

*20 min.*

### WBT-116: Driving Reverse

Some of the most common situations or crashes aren't on the open road; they are in parking lots, driveways and parking garages, striking fixed and moving objects -- while the vehicle is in reverse. This latest instructional video, and E-Learning course, Driving Reverse, Smith System shows drivers how they can avoid backing collisions and increase safety while parking and in other backing situations. Available in: English, French.

*20 min.*

### WBT-118: Driving Prepared

When it comes to operating a vehicle safely, you can never be too prepared. Driving Prepared reminds drivers the importance of remaining ready for unexpected dangers which could arise behind the wheel. Topics include staying fit for duty, daily pre-trip inspections, proper route planning, nighttime driving, foul weather and other driving hazards. Available in: English, French.

*16 min.*

### WBT-115: Driving Family

Driving Family demonstrates how every driver can stay 100% engaged behind the wheel. After watching this video every person should walk away focused on driving safety in a way that they werent before and will drive different. Available in: English, French.

*30 min.*

### WBT-111: Driving Drowsy

Collisions from fatigued or drowsy driving are on the rise. Our new video, Driving Drowsy highlights some of the common misconceptions of drivers about fatigued driving and the dangers drivers face. This training video demonstrates how The Smith System 5Keys can help you and your drivers remain alert and combat fatigue before trouble happens. Available in: English, French.

*19 min.*

### WBT-113: Driving Distracted

Motor vehicle crashes resulting in injuries and deaths are on the rise at a rate officials havent seen in decades. Driver distractions is the reason behind this alarming trend with smart phones being the number one culprit. Our interactive presentation, Driving Distracted, educates drivers in the four types of distractions and how the brain processes information then, through an interactive demonstration, proves the concept of multitasking to be a myth. Available in: enUS, esUS, frCA, de, ptBR, pl, zh, cz, sv.

*30 min.*

### WBT-620T: Core Content: The 5Keys to Reversing - Truck

This course explains all of the 5 Keys of the Smith System as they pertain to Large Vehicles traveling in Reverse. Available in: enUS, esUS, frCA, de, ptBR, nl, pl, zh, ar, hi, it, ko, th, nb, tr, enGB.

*25 min.*

### WBT-620SV: Core Content: The 5Keys to Reversing - Small Vehicle

This course explains all of the 5 Keys of the Smith System as they pertain to Small Vehicles traveling in Reverse. Available in: enUS, esUS, frCA, de, ptBR, nl, pl, zh, ar, hi, cz, it, ko, sv, th, nb, tr, enGB.

*18 min.*

### WBT-630T: Core Content: The 5Keys to Forward Motion and Reversing - Truck

This course explains all of the 5 Keys of the Smith System as they pertain to Large Vehicles traveling in Forward Motion and Reversing. Available in: enUS, esUS, frCA, de, ptBR, nl, pl, zh, ar, hi, it, ko, th, nb, tr, enGB.

*64 min.*

### WBT-630SV: Core Content: The 5Keys to Forward Motion and Reversing - Small Vehicle

This course explains all of the 5 Keys of the Smith System as they pertain to Small Vehicles traveling in Forward Motion and Reversing. Available in: enUS, esUS, frCA, de, ptBR, nl, pl, zh, ar, hi, cz, it, ko, sv, th, nb, tr, enGB.

*57 min.*

### WBT-610T: Core Content: The 5Keys to Forward Motion - Truck

This course explains all of the 5 Keys of the Smith System as they pertain to Large Vehicles traveling in Forward Motion. Available in: enUS, esUS, frCA, de, ptBR, nl, pl, zh, ar, hi, it, ko, th, nb, tr, enGB.

*45 min.*

### WBT-610SV: Core Content: The 5Keys to Forward Motion - Small Vehicle

This course explains all of the 5 Keys of the Smith System as they pertain to Small Vehicles traveling in Forward Motion. Available in: enUS, esUS, frCA, de, ptBR, nl, pl, zh, ar, hi, cz, it, ko, sv, th, nb, tr, enGB.

*45 min.*

### WBT-102: Compass Maneuvering - Small Vehicle

Backing collisions and fixed object, forward motion collisions are consistently at, or near the top of the list of fleet reportable incidents  but they dont need to be. Working with thousands of drivers every year gives us rare insight into why collisions happen and how they can be prevented. Available in: English, French.

*22 min.*

### WBT-209: Arrive Alive - Saving Fuel

This course is for you if you want to save fuel while you drive, not instead of driving. It offers suggestions on how to stop wasting fuel by changing your style of driving and navigating through traffic. Fuel conserving techniques include how to spend less time idling at intersections, selecting a better route, controlling your speed, and maintaining your vehicle so your engine doesnt struggle. Available in: enUS, frCA.

*7 min.*

### WBT-210: Arrive Alive - Proper Positioning in Traffic

What lane you drive in or how far away you are from other vehicles is often your choice and important to your safety. Keeping a space cushion around your vehicle can protect you from rear-end collisions, or becoming caught in traffic, and even offer protection from aggressive drivers. This course offers valuable guidelines for the often-overlooked safety measure of selecting and maintaining your position on the road. Available in: English, French.

*5 min.*

### WBT-202: Arrive Alive - Proper Following Distance

Some drivers don't give following distance any thought at all - they drive "where they're comfortable", whatever that means. This course covers which of The Smith System 5Keys and other safe driving techniques to use to help you decide on a safe following distance to drive safely and Arrive Alive. Available in: English, French.

*5 min.*

### WBT-212: Arrive Alive - Margin for Error

If something suddenly goes wrong on the road, will you have enough room to think and act? This course offers simple tips on how to leave enough space around your vehicle to give yourself a margin for error. By following the guidelines in this course, safe driving becomes second nature and your chances of being involved in a collision are significantly reduced. Available in: English, French.

*5 min.*

### WBT-205: Arrive Alive - Foul Weather Driving

When the weather takes a turn for the worse, so do traffic incident statistics. This course offers tips to help you diminish the dangers of driving in foul weather, using the Smith System 5Keys. Instruction includes how to improve visibility, look out for other drivers, anticipate dangerous situations before they develop, and maintain traction on slippery surfaces. Available in: English, French.

*6 min.*

### WBT-211: Arrive Alive - Emotions and Driving

Drivers often don't realize how important it is to focus on driving and leave emotions out of it. All emotions, whether positive or negative can have an effect on how you drive. This course suggests ways in which you can gain control over emotions that tend to block your ability to perceive, reason, and react well to the various traffic situations you encounter on the road. Available in: English, French.

*6 min.*

### WBT-207: Arrive Alive - Drowsy Driving

Research shows drivers who remained awake for more than 18 hours demonstrated reaction times equivalent to those with a blood alcohol concentration of .05%. This course looks at the reasons behind sleepiness, the peak periods for wakefulness and sleepiness, common misconceptions of combating sleepiness, as well as what does work to counteract some of the effects of tiredness and minimize the changes of driving drowsy. Available in: English, French.

*5 min.*

### WBT-201: Arrive Alive - Building Effective Seeing Habits

To safely operate a motor vehicle, your eyes must constantly feed information to your brain and assess your driving environment and determine what is safe and what is a hazard. This course covers some of the ways to help your eyes and brain help you make safe decisions. Decisions such as controlling your speed and Aiming High in Steering, the first of the Smith System 5Keys. Available in: English, French.

*4 min.*

### WBT-208: Arrive Alive - Avoiding Intersection Collisions

The Federal Highway Administration reports 50% of all collisions and 20% of fatalities happen at intersections. This short course on safely navigating through intersections includes guidelines on managing your speed, timing the lights, using turn signals wisely, and most importantly, how to remain aware at all times when approaching, stopping at, or driving through an intersection. Available in: English, French.

*6 min.*

### WBT-203: Arrive Alive - Avoiding Distractions

This course describes the different types of distractions a driver must understand, recognize, and avoid. Included are suggestions on how to eliminate distractions while you drive, with a focus on one of the most powerful distractions of all: using a cell phone. Available in: English, French.

*5 min.*

### WBT-206: Arrive Alive - Avoiding Backing Collisions

Backing incidents are the single most common type of traffic collision and are almost always preventable. In this course, we discuss ways to avoid backing, parking in areas that offer the least competition, and watching out for moving dangers such as pedestrians and cyclists. Available in: English, French.
